

CLEWS IN DUAL CRIME LEAD TO STONE WALLS

Neither Rector's Widow
Nor Willie Stevens
Among Suspects.

NEW BRUNSWICK, N. J., Sept. 25.—The authorities of two counties today admitted that every clue concerning the double murder of the Rev. Edward W. Hall, rector of the church of St. John the Evangelist, and Mrs. Eleanor Mills, the wife of the church sexton, whose bodies were found under an apple tree a week ago Saturday, has carried them into nothing more than a labyrinth of theories, leading nowhere.

MYSTERY FOREVER?
A feature that the drama that preceded the death of the rector and the sexton's wife would never be recounted seemed evident in the minds of the detectives on the case.

Mrs. Hall, the widow of the murdered rector, has been tacitly absolved of connection with the crime. Questioning by detectives and police has resulted in an explanation, according to them, of Mrs. Hall's time from Wednesday, the day before the double murder is believed to have been committed, until Saturday, when the bodies were found.

NOBODY ARRESTED.
Not one person as yet thrown into the limelight of investigation has been judged of sufficient value to the prosecution to warrant being held. Henry Stevens, brother of Mrs. Hall, returned here today after a week spent in New York, where, he said, he was packing for a trip to Europe. Officials of the two counties prosecuting the case have concerned themselves with him, because of the fact that he was in Lavallette, N. J., on the night of the double murders.

END OF STRING.
Despite the strict secrecy which Prosecutor Stricker of Middlesex county and Prosecutor A. H. Beckman of Somerset county, have thrown about their operations, the latter is prevalent that they are at the end of the numerous clues advanced upon the discovery of the bodies. They have gone over the lives of both Mrs. Mills and the Rev. Hall, in the finest detail. They have tracked down theories and suppositions and all to no avail. The remote possibility that some one may confess the crime is the only hope that is common.

COMMISSION NAMED TO PROBE DISASTER

SACRAMENTO, Cal., Sept. 25.—Appointment of A. B. C. Dohrmann, San Francisco merchant; W. J. Loring, president of the American Mining congress, and John C. Williams, practical miner, as a commission to investigate all phases of the Argonaut mine disaster in which 47 lives were lost, was announced at Governor Stephens' office.

The governor, in a telegram of instructions to Dohrmann, said he was confident the commission would "make such recommendations as will tend further to safeguard the workers in mines and prevent disasters of this kind in future."

THRUST HEAD FIRST IN BARREL OF TAR

BERKELEY, Cal., Sept. 25.—Five unidentified men seized W. W. Glenn, of Sacramento, in Contra Costa county, near here, plunged him feet first down into a barrel of melted tar, and left him in that condition. Glenn experienced some difficulty in extricating himself. A passing motorist brought him here. He said he could not account for the attack on him.

HOPE OF PEACE IN NEAR EAST

Kemalists Believed Desirous
of Dodging War With
British.

(Continued from Page One)

Russia and Bulgaria, shall participate in the conference.

"We further insist that Great Britain shall suspend all naval and military movements in the straits during the course of the conference."

PARIS, Sept. 25.—(By the Associated Press.)—Henry Franklin-Bouillon prior to his departure for Smyrna Sunday with the mandate virtually of France, Great Britain and Italy to deal with Mustafa Kemal Pasha, received the following message from the Turkish nationalist leader:

"I await your arrival.
Your friend, Mustafa Kemal.
Mustafa Kemal Pasha will reach Smyrna Thursday morning.
This has been a victory for common sense, for about the first time in history," said the French envoy to the Associated Press correspondent today. "Much of the success in reaching the agreement was due to Lord Curzon, whose handling of the negotiations was in the finest spirit and worthy of British statesmanship."

Pointing to the note to Mustafa Kemal, and so drew it up that it is a communication of equals to equals and not in the manner of superiors threatening inferiors.

He will, of course, sooner or later come to the end of his strength and go to smash. But may he not bring to grief with him those who are trying now to pull him in?

But write from personal experience, having just come from Asia Minor and Constantinople, when I say that the Ankara Nationalists represent something far different from a group of patriots vainly revivifying the misfortunes of their country.

Behind Mustafa Kemal Pasha stands the Islamic world, 300,000,000 strong, stretching across of southern and central Asia and northern and central Africa. Behind the Islamic world stands Soviet Russia. Behind Soviet Russia, if they choose to do so, stands Germany and Japan.

Oh, the folly of France! Oh, the folly of Italy! Oh, the folly of England! And—yes, I must say it—Oh, the folly of America!

Meanwhile a note from the allied powers disclosing their communication to Mustafa Kemal Pasha according to his conditions for peace has reached the foreign office and has had the effect on the Grecian people of a fright and undesired shower bath.

The powers in their communication merely informed the Greek government of the Greek people.

Greece is not looking for more trouble, said one official today, but she intends to go right on with the task of building up her army in Thrace. In Thrace Greece is and in Thrace Greece will remain, is the watchword today of the Greek people.

U. S. WILL PROTECT
LONDON, Sept. 25.—A Reuters dispatch from Athens says that Admiral Bristol has informed the Greek government that the United States will undertake to protect with destroyers the removal of the remaining 150,000 refugees at Smyrna if Greece provides the means of transportation.

The American consul undertakes to provide shelter and sustenance for the refugees, and they fix a limit of one week for their embarkation.

The Greek government has gratefully accepted the offer.

**DEAD ENGINES
WORRY ROADS**
NEW YORK, Sept. 25.—The railroads have exhausted their surplus freight cars for the first time since November, 1920, owing to increased industrial activity throughout the country, the association of Railway Executives announced.

The increase in the movement of crops, fuel and other commodities always brings a demand for more freight cars in the fall, a statement said, so that the present situation is considered reasonable and normal.

GIVES GREAT CONCERN.
The prospect of a car shortage was not referred to by the executives.

The demand on the carriers to handle bumper crops, combined with the emergency movement of coal, has centered attention on the depleted motive power equipment of the roads, which has been affected by the shopmen's strike. The association's last report placed the number of locomotives unfit for service at more than 30 per cent in August. Since then a large number have been retired for repairs, some railroad officials admitted, estimating that approximately one-half of the roads' motive power is unavailable for use in the present emergency.

The need for more locomotives to move the congestion of freight on nearly every railroad in the country is giving greater concern to rail officials, it was said, than the possibility of a car shortage.

With more motive power available, officials said, they could easily secure a turnover of freight and coal cars that would tend to nullify the car shortage, or at least prevent it from assuming large proportions.

EMBARGOES PREDICTED.
It was predicted that other eastern roads would have to follow the course of the Lackawanna and Lehigh Valley railroad and place embargoes on western freight before the end of the week.

The movement of all freight would be sacrificed by the carriers, it was said, for the problem of moving anthracite, but that the task they faced of providing enough cars to keep the mines open would stretch their equipment and resources to the limit.

Turkish sultan) against Greek aggression?

This argument was used by the Turkish supporters in England, who declared that enforcement of the treaty of Sevres was madness for England—the greatest Mohammedan power in the world.

Weight was added to this argument by the publication of a letter from the British viceroy, stating that backing the Greeks against the Turks was making the problem of pacifying India virtually impossible. The 70 million Mohammedans of India stood solidly behind the Turkish Nationalists.

FORCE—ISLAM'S CREED.
There is only one form of prestige that counts with the Mohammedans, the prestige of force. If they get the idea into their heads that they can play one master against another, there is no telling what they will do while they are running amuck.

This is seen at the present moment. Owing to French and Italian intrigues at Angora, Mustafa Kemal has the bit in his teeth. The entente powers can pull on the reins all they want to. It is too late. They are dealing with a runaway horse.

He will, of course, sooner or later come to the end of his strength and go to smash. But may he not bring to grief with him those who are trying now to pull him in?

KENDRICK TALKS
AT EVANSTON

Wyoming Senator Outlines
Issues; Mondell to
Talk Later.

EVANSTON, Wyo., Sept. 25.—Senator John B. Kendrick, Democratic candidate to succeed himself in the upper chamber at Washington, was the principal speaker at a Democratic rally held in Evanston Saturday night. A large audience heard the senator discuss the issues of the day.

Senator Kendrick said he sympathized with the lawful aspirations of the wage earners and declared he always wished to be considered a friend of the working man.

He declared he was an advocate of bonus for the soldiers, who were enrolled for service during the world war.

Senator Kendrick said he could not look with favor upon the project of leasing the Muscle Shoals properties to Henry Ford. One of his objections to the proposal the length of time mentioned in the proposed contract.

On Sunday Senator Kendrick gave an address to the railroad men of the city.

Senator Kendrick is conducting a vigorous campaign for re-election with Frank Mondell, representative to congress where he is house leader, as his opponent. Evanston will have an opportunity to hear Mondell discuss the issues at a political meeting the last of this week.

HELD IN THEATRE.
The rally was held at the Strand theatre, C. C. Smith of Evanston, acting as chairman.

Mrs. Arthur Davis, Norval Cashion and William Brown sang songs. George Stanley, William McKee and William H. Toy favored with instrumental selections.

The address given by Constantine Arnold was filled with humorous anecdotes connected with his boyhood friendship with the speaker of the evening, Antonette Kendrick.

Mrs. Antonette Pank, who is intimate with the affairs of Washington, followed. She paid a tribute to the senator's record at Washington. She pointed out that Kendrick has stood for the people all the time, has fought for the stock men and the soldiers with the same energy that he has fought against the exploitation of our precious natural resources, by predatory interests.

She recalled the promises made at the last presidential campaign to reduce taxes and settle the railroad question, both of which remain unfulfilled. She remarked that the stockholders of the railroads were the special charges of the government, the favorite sons, as it were, while the soldiers were the red-handed stepchildren. Among other things mentioned in her speech was, "Newberry hangs on the neck of the G. O. P. like the albatross around the neck of the ancient mariner."

FRIEND OF ROOSEVELT.
Mrs. Pank was an intimate friend of President Roosevelt and assisted him in his Progressive campaign. When

Finds It Empty**
(Special Dispatch.)
EVANSTON, Wyo., Sept. 25.—"The Mystery of the Empty Cache," or "What Happened to the Rum," thus might be entitled the adventure of the sheriff's force of Uinta county, Saturday, an adventure that gave them much concern, and no little chagrin.

A message sent to the sheriff's office that a cache of 48 cases of bonded whiskey had been uncovered by road workers in the vicinity of Evanston sent the peace officers hurrying to the scene.

When they arrived, not many minutes later, the cache was found—empty! The liquor had disappeared and there was no trace of its leaving.
